

The Quarterly Slice

Welcome to the Coolest Kids Club in the world! Now that you have your very own savings account it's time to start saving money!

Fun Money Facts

One coin design used to be anonymous. When it first came out in 1938, the Jefferson nickel was the only circulating coin that did not carry the initials of the artist. That was changed in 1966, when Felix Schlag's initials were added.

Coins, like students, can get low grades... One way coin collectors grade coins is on a scale of 1 through 70. The coin's grade depends on its condition—dull or shiny, worn or crisp, nicked and scratched or clean. Fortunately, there's no special grade a coin has to reach to pass the collectible test!

We're the Mint that makes the most! The United States Mint makes more coins and medals by far than any other mint in the world. We have made not only our own coins, but coins for some other countries as well.

George Washington was our first President—but not the first President on a circulating coin. In 1909, President Lincoln appeared on a one-cent coin and became the first real person—as well as the first American president—to have his face appear on a regular-issue American coin.

Fun Summer Activities

Sponge Bullseye

Materials:

Chalk

Sponge

Water

Draw a bullseye on your driveway or sidewalk and assign a point value to each circle of the target.

Draw a starting line and take turns tossing your wet sponge at the targets. Whoever has the most points at the end is the winner!

Pine Cone Bird Feeder

Materials:

pine cones
peanut butter
suet
birdseed
string or yarn

Gather pine cones. Use spoons to slather peanut butter and suet onto the pine cones. Roll the cones in birdseed. Tie to a tree branch with a piece of string or yarn.

Bubble Contest

Materials:

Bubbles

Bubble-blowing tools: drinking straws, funnels, wire loops, and so on
Marble or other small toy

Directions:

Give each contestant a supply of bubbles and tools. Then wet the tabletop with bubbles and start the contest! Below are a few sample challenges.

Who can blow the biggest bubble?

Who can create the biggest pile of bubbles in thirty seconds?

Whose bubble lasts the longest?

Whose bubble is the prettiest?

Who can blow a bubble within a bubble?

Who can get a marble or other small toy inside a bubble?

Ice Cream In A Bag

What you'll need

- Ice cubes (enough to fill each gallon-size bag about half full)
- 1 cup half and half
- 1/2 cup salt (Kosher or rock salt works best, but table salt is fine.)
- 2 tablespoons sugar
- 1/2 teaspoon vanilla extract
- 1 pint-size ziplock bag
- 1 gallon-size ziplock bag
- Your favorite mixins such as chocolate chips, cereal pieces, or fresh fruit.

How to make it

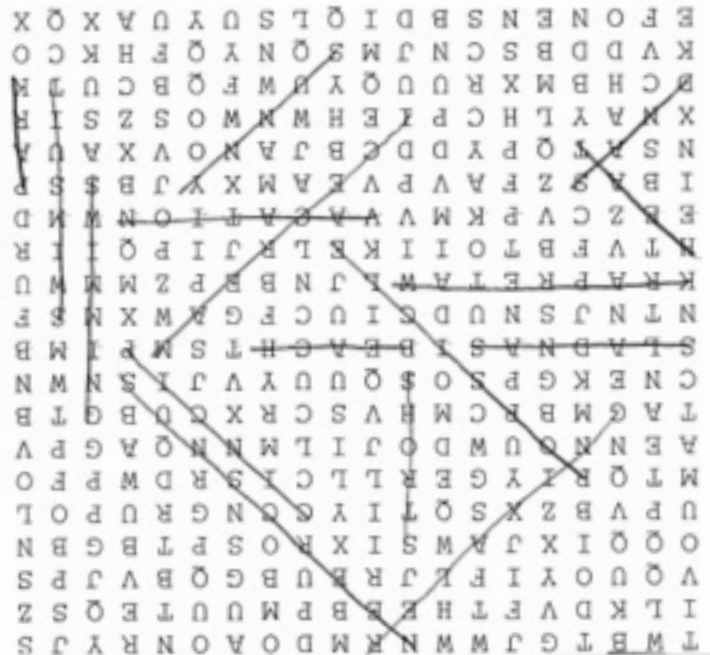

- Combine the sugar, half and half, and vanilla extract in the pint-size bag and seal it tightly.
- Place the salt and ice in the gallon-size bag, then place the sealed smaller bag inside as well. Seal the larger bag. Now shake the bags until the mixture hardens (about 5 minutes). Feel the small bag to determine when it's done.
- Take the smaller bag out of the larger one, add mix-ins, and eat the ice cream right out of the bag. Easy cleanup too.
